The above petition has been approved. As the petitioner requests, we have sent the petition to the U.S. Department of State National Visa Center (NVC), 32 Rochester Avenue, Portsmouth, NH 03801-2909. The NVC processes all approved immigrant visa petitions that need consular action, including the collection of necessary forms and documents. The NVC will contact the beneficiary of this petition with further information about immigrant visa processing steps.

You should allow a minimum of 45 days for U.S. Department of State processing before contacting the NVC. If you have not received any correspondence from NVC within 45 days, you may contact the NVC at <https://nvc.state.gov/inquiry>.

Dear Hadya Omar,

Thank you for your interest in immigrating to the United States of America. The Department of State's National Visa Center (NVC) received your approved immigrant visa petition from U.S. Citizenship and Immigration Services (USCIS). United States immigration law requires immigrant visa applicants to obtain certain vaccinations (listed below) prior to the issuance of an immigrant visa. Instructions and procedural guides direct panel physicians who conduct immigrant visa medical examinations to verify that applicants have met the vaccination requirement, or that it is medically inappropriate for the visa applicant to receive one or more of the listed vaccinations:

Mumps, Measles, Rubella, Polio, Tetanus and

Diphtheria Toxoids, Pertussis, Influenza Type B (HIB), Hepatitis A, Hepatitis B, Varicella, Pneumococcal, Influenza, Rotavirus.

To assist the panel physician, and to avoid delays in the processing of an immigrant visa, all immigrant visa applicants should have their vaccination records available for the panel physician's review at the time of the immigrant medical examination. If you do not have a vaccination record, the panel physician will work with you to determine which vaccinations you may need to meet the requirement. Certain waivers of the vaccination requirement are available upon the recommendation of the panel physician. **Only a physician can determine which of the listed vaccinations are medically appropriate for you, given your age, medical history and current medical condition.**

Blood test and X-ray:

Children aged 2 to 14 are subject to tuberculin skin test. The blood test and X-ray are generally not required of persons under the age of 15, but they are required, under existing United States law, of all other persons. You must undergo the
